## Dash Card - Micro SDHC/SDXC

### Special memory card for dash cams

TEAMGROUP launches Dash Card, a memory card specially made for dash cams. In order to guarantee driving safety and protect own rights and interests, and reduce unnecessary disputes, Dash Card, a memory card for dash cam is essential in crucial moments.

### Dash cam's best partner

TEAMGROUP Dash card is a memory card carefully designed for dash cams. Through compatibility testing with many major dash cams on the market, it is proven to be dash cam's best partner for memory storage.

### Most suitable for FULL HD video recording

With UHS-I U1\*(Class10) specification, Dash Card allows dash cam to record Full HD\*\* 1080p (30fps) high quality video without any lag or unsmooth motions. It can record driving images or crucial moments clearly and provided as evidence to clarify the cause and responsibility of the accident.

\*The minimum sequential write speed of UHS-I U1(Class10) is 10MB/s.

\*\*Full HD video support may vary based upon host device, file attributes and other factors.

### Long period of time and stable storage performance

After testing the record and photo function of numerous major dash cams on the market, Dash Card is proven to have high compatibility, long period of time and stable storage performance that can completely record the trip and crucial moments.

## Tested under harsh conditions

Dash Card not only endures the extreme environmental conditions and wide operating temperature from -25 to 85°C, it is also shockproof, waterproof and X-ray proof. It provides an all-around protection to the recording data so you don't have to worry even if the device is damaged, the memory card will still keep the data intact.
